EXPERIENCE

UNITED STATES | REMOTE FROM BRAZIL

Aug 2021 - Now @ ScrumLaunch | Frontend and Mobile Engineer

In the more than 12 international projects I have participated in, in 100% of them the clients gave good feedback and high satisfaction with my work. I have participated in projects of various sizes, from startups to fintechs with more than 8M users. I have also developed mobile solutions and backend functionalities (Node.js).

RESPONSIBILITIES:

- Plan, organize, estimate and execute tasks for each item requested by the client, from changes to new features;
- Keep clients updated on progress, without hesitating to speak up or ask questions. I was always very clear, offering solutions and suggestions, all in a creative and effective way.

DELIVERY:

- I was responsible for migrating projects from React to Next.js, implementing SSR and caching. The performance of one of the projects went from 53% to 98% (data from Google Lighthouse);
- I developed projects that went live and have real and active users. They are published on the web, and I have deployed them to Heroku, Vercel and AWS EC2;
- I worked on projects that used AI (Artificial Intelligence), in one of them the application was Serverless and I was responsible for integrating the Frontend with an OpenAI model.

BRAZIL | REMOTE

Oct 2020 - Aug 2021 @ Click Card | Frontend and Mobile Engineer

ClickCard is a startup focused on creating Digital Business Cards as PDF and improving the Network. I assisted the mobile team in developing the second version (v2) of the application using React Native. I also developed the company's landing page and blog, using React, Next.js and CMS panel.

RESPONSIBILITIES:

- I taught the technologies that the company used to its intern;
- I migrated the landing page that was made in WordPress to one made in Next.js;
- I developed the entire company blog using Next.js, GraphQL and Prismic CMS.

DELIVERY:

- Improving project performance and user experience on mobile devices;
- Good SEO on blog post pages increased customer acquisition.
